- **X (UP Board) |** Kisan Inter College, UP *81% | 2022*

PROJECTS (ALL DEPLOYED)

TradeVault | AI-Powered Trading Journal SaaS *Live Demo* | *GitHub*

- Developed a full-stack SaaS platform that enables traders to record, organize, and analyze their trades in a secure environment.
- Implemented JWT authentication, trade journal management, strategy library, psychology tracker, risk calculators, image uploads, and AI-powered trade analysis using the Gemini API.
- Built responsive user interfaces and RESTful APIs with complete CRUD functionality, cloud image storage, and live deployment.

  Tech Stack: *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Gemini API, Multer, Cloudinary, JWT*

Codeify | AI-Powered Code Review SaaS *Live Demo* | *GitHub*

- Built an AI-powered code review platform that analyzes source code and provides bug detection, optimization suggestions, explanations, and code fixes.
- Integrated the Monaco Editor with multi-language support and Gemini AI to generate real-time code reviews in a clean, responsive interface.
- Developed a scalable frontend with modern UI components and seamless API integration for an enhanced developer experience.

  Tech Stack: *React.js, Node.js, Express.js, Tailwind CSS, Monaco Editor, Gemini API*

Nexa AI | AI-Powered Chat Platform *Live Demo* | *GitHub*

- Developed a full-stack AI chatbot supporting conversational responses, image-based interactions, and secure user authentication.
- Integrated Razorpay payment gateway to support premium subscriptions and managed backend APIs for user and payment workflows.
- Designed a responsive chat interface with scalable MERN architecture and deployed the application for public access.

  Tech Stack: *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Gemini API, Razorpay*

POSITION OF RESPONSIBILITY

Organiser | Pragyan – Coding Club, IET Ayodhya *Present*

- Plan and organize hackathons and coding events for college students, handling coordination, participation and execution.
- Encourage peers to build real projects and strengthen their problem-solving and teamwork skills.

ACHIEVEMENTS / HOBBIES

- Independently built and deployed 3 SaaS projects spanning AI, payments and full-stack development.
- Organiser of college-level hackathons at IET Ayodhya.
- **Hobbies:** Passionate about learning finance and forex markets, and always exploring ideas to build something new.
